CRAFTED FOR CONNECTION

[HARROWS.CO.NZ](https://harrows.co.nz)

Crafted for  
connection.

# Introducing Terete

Crafted around a distinctive tapered column base, the Terete Collection is the epitome of sleek sophistication and versatility in design.

From intimate meetings to bustling collaborative tables and leaners, the simple minimalist forms of Terete deliver captivating silhouettes at every turn, while offering a functionality for every application.

Terete is a collection of tables and leaners from single column rounds and squares, up to large scale rectangle and stadium tops either on individual columns or a stunning stadium base.

It's more  
than furniture  
- creating  
connections,  
a catalyst for  
community.

Finishing

Solid timber table tops on veneer column bases can be finished in a traditional timber stain, a paint stain or a solid paint finish, satin, gloss or matte.

Multiple top options

The Terete tops are available from solid timber, HPL or LPL. Round or square tops with radiused corners for smaller sizes. For larger sizes, choose from rectangles with radiused corners, or the stadium top with full radiused ends.

Integrated power

Available with integrated below-surface power outlets and are designed with concealed cable management options and grain matched lids.

Column + Stadium bases

Both base options feature a tapered column base with angled faces and curves. For a column base these are free standing, and for the stadium base an infill panel joins each column. Bases have adjustable feet and are designed with internal access and come supplied with ballast weight if required and in addition can be bolted to floor if required.

Leaner + Table

Terete offers table height at 740mm or leaner height at 1050mm. The taper of the base is designed to be consistent across all variants within the collection.

- 02, 04, 05

Key Features

- 01 Tapered column base with angled faces and curves
- 02 Column Base or Stadium Base
- 03 Table or Leaner height
- 04 Stained or painted in colour of choice

# Infinite possibilities.

Unlock a world of customisation with the Terete Collection's vast array of finishes. From rich timber stains through to solid paint, understated matte to elegant satin or in your face high gloss. The palette offers boundless options to suit every style and space.

Dive into a spectrum of hues, or opt for the durability of HPL or LPL finishes. With Terete, your vision knows no bounds.

# About the designer.

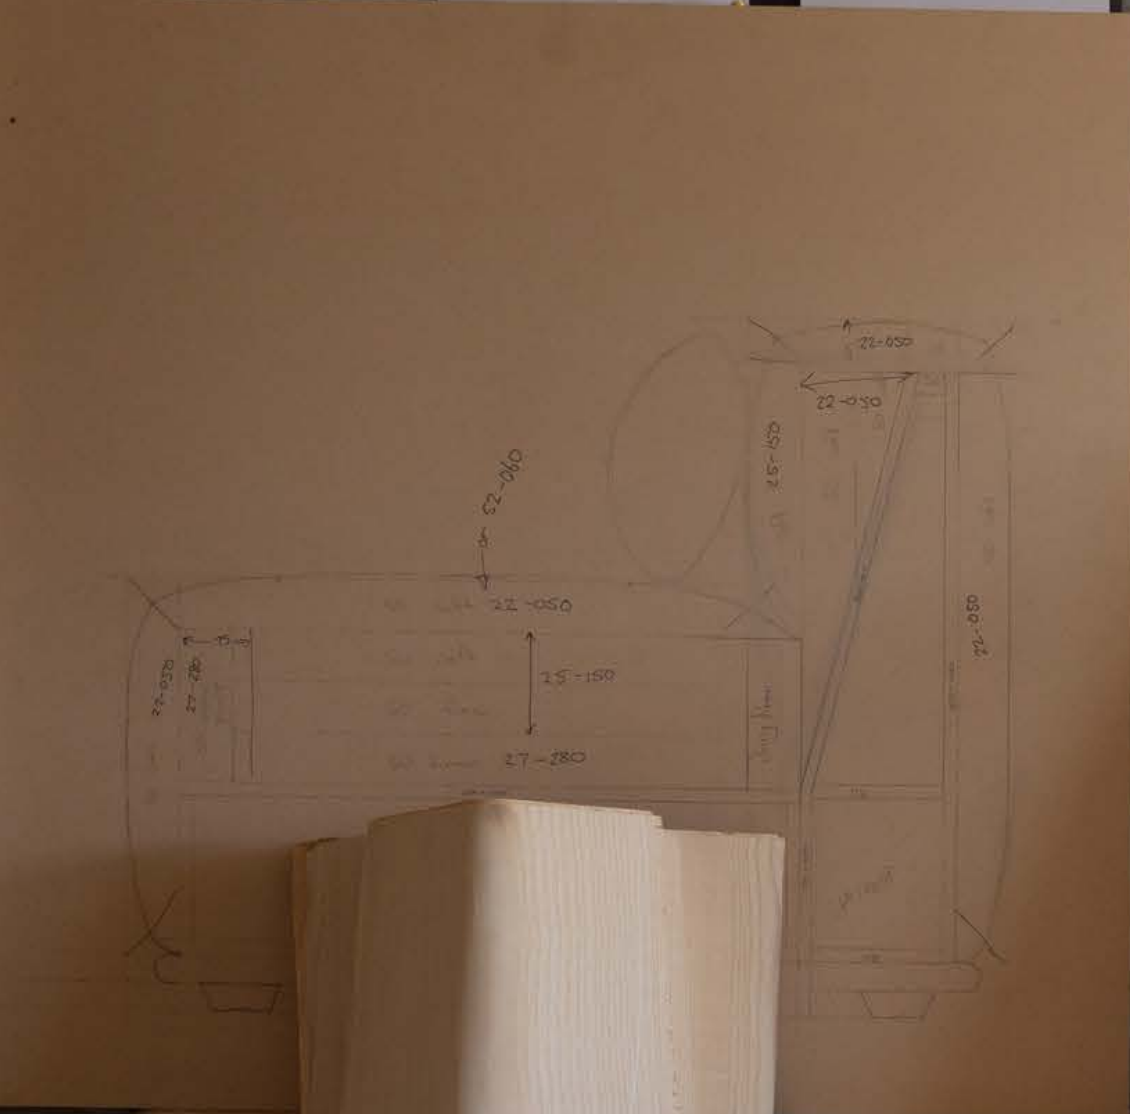

“If you’re not going to make it beautiful, don’t bother.”

Mark Suckling, Creative Director.

Mark heads up our inhouse design team and development team, and his guiding philosophy is simple. It must solve a problem. It must endure. And it must be beautiful. To make a product enduring is to make it beautiful.

# Made for life.

At Harrows we believe in sustainability and responsible manufacturing. We are committed to minimizing our impact on the world around us.

Latest technology and time-honoured craft go hand in hand to create products that bring people together and are designed with longevity in mind, extending the useful life and in turn reducing waste.

Terete has been created as a product with social relevance and timeless design principles, made from quality materials and built to last. By manufacturing Terete here in New Zealand, we have complete control over the quality and origin of all materials, as well as minimising international and local freight volumes and emissions.
