Harrows

CHAMPIONS OF SOCIAL SPACES HARROWS.COM.AU

Champions of social spaces.

Introducing Orbit

A free-standing circular pod, offering a space to retreat while staying connected to the surrounding environment.

Curved construction and natural materials come together to create organic lines and inviting spaces. A semi-muted atmosphere for meeting or working, with desk and lounge variants, as well as a range of sizes and configurations.

Find clarity and focus while staying connected.

Wool Lining

Featuring 100% New Zealand wool acoustic lining that enhances sound absorption, creating tranquil retreats. Made from natural, locally sourced wool, it combines acoustic performance with sustainable NZ craftsmanship.

Lounge

Orbit Lounge features an upholstered seat with a range of sizes. Choose from 180° or 270° layouts, or create a private 360° retreat with face to face seats.

Integrated Power

All options include conveniently located power and USB outlets, seamlessly integrated into the design to keep devices charged and productivity uninterrupted.

Focus Desk

Orbit Focus Desk offers 180°, 270°, or full 360° sizes and features a floating solid timber desk, stained in colour of choice.

Timber Panelling

Ash veneer curves around the exterior of the panels, with solid timber top and end caps, all stained in colour of choice.

Steel Kickpiece

Orbit's powder coated steel kickpiece offers durability and protection in high-traffic environments, removeable for cable accessiblity.

Floc Acoustic Lining - 100% Wool

Orbit upholstery reccomendations

Maxwell Rogers Superfelt - 100% Wool

Made for life.

At Harrows we believe in sustainability and responsible manufacturing. Orbit has been designed combining the latest technology and time-honoured craft to bring people together. It is designed with longevity in mind, with the intent of extending its useful life and in turn reducing waste.

Orbit is constructed from bio-based materials – the key materials being timber sourced from responsibly managed forests and Floc Panels, a 100% New Zealand wool material. The Orbit Lounge modules are recommended with NZ Wool fabrics and use a WiseWool needle-punched blanketing to replace the traditionally synthetic upholstery wrap layer.

Floc Panels

Strong-wool is the 100% natural product of the shearing of New Zealand sheep, which is done at least once a year, depending on where the sheep live. Shearing is done to maintain their health and welfare, as well as to harvest their fleeces. Floc is fully biodegradable and compostable.

Being wool, it has the natural ability to absorb harmful chemicals such as strong smelling colourless gases from the indoor atmosphere. The VOC emissions are incredibly low, with testing available upon request.

About the designer.

“If you’re not going to make it beautiful, don’t bother.”

Mark Suckling, Creative Director.

Mark heads up our inhouse design team and development team, and his guiding philosophy is simple. It must solve a problem. It must endure. And it must be beautiful. To make a product enduring is to make it beautiful.

Life is built on the interaction of people. We fill spaces with thoughtfully crafted furniture to facilitate these interactions.

Let's talk.
